## 01 PROFILE

Experienced Front end Developer (2 yrs) in React js, Semantic UI, advanced JavaScript, Typescript, form handling, state management, routing, and project structuring. Committed to clean, efficient code.

## 02 EMPLOYMENT HISTORY

10/2021 — 10/2023

### Frontend Developer at Argus System

Pune, Maharashtra

As a dedicated Frontend Developer at Argus System for two years, I honed my skills and expertise in creating seamless and visually appealing web experiences. My role encompassed working with a range of cutting-edge technologies, including:

- **HTML & CSS:** Proficient in crafting responsive and pixel-perfect layouts, ensuring a consistent and elegant user interface.
- **JavaScript:** Leveraged JavaScript to enhance user interactions, develop dynamic features, and optimize website performance.
- **TypeScript:** Utilized TypeScript to bring static typing and improved code quality to our projects, enhancing maintainability and scalability.
- **React:** Developed and maintained interactive web applications using React, leveraging its component-based architecture and state management.
- **UI/UX:** Collaborated closely with UI/UX designers to transform design concepts into intuitive and user-friendly interfaces.
- **Version Control:** Managed codebase efficiently using Git and GitHub, ensuring smooth collaboration with the development team.
- **Responsive Design:** Created responsive web designs to ensure optimal user experiences across various devices and screen sizes.
- **Performance Optimization:** Implemented performance optimizations, including code splitting, lazy loading, and caching, to boost website speed.
- **Cross-Browser Compatibility:** Ensured cross-browser compatibility and accessibility, adhering to web standards and best practices.
- **Testing and Debugging:** Conducted thorough testing and debugging to identify and resolve issues, ensuring a bug-free user experience.
- **Code Quality:** Maintained high code quality through code reviews, linting, and following coding standards.

During my time at Argus System, I contributed to successful web projects and demonstrated a

commitment to staying updated with the latest frontend technologies. Let's connect to explore how I can enhance your team's success!

## **03 PROJECTS**

---

### **Enterprise Resource Management System**

**Application Type:** ERP Web Application

**Role:** Frontend Developer

**Environment:** React.js, TypeScript, JavaScript, CSS, HTML

**Tools:** Visual Studio Code, Git, Jira

**Team Size:** 12

**Project Overview:** Led the frontend development of an Enterprise Resource Management System, streamlining business processes for a large organization. Utilized React.js with TypeScript for a robust and scalable architecture. Employed CSS and HTML to ensure a professional and user-friendly interface.

#### **Roles and Responsibilities:**

- Spearheaded the frontend development, collaborating with a multidisciplinary team.
- Implemented React.js with TypeScript for a modular and maintainable codebase.
- Applied advanced CSS techniques to achieve a polished and professional user interface.
- Collaborated closely with backend developers to integrate frontend components seamlessly.
- Conducted code reviews, mentored junior developers, and ensured coding standards adherence.
- Engaged in continuous improvement, optimizing performance and user experience based on feedback and analytics.

### **Corporate Learning Management System**

**Application Type:** LMS for Corporate Training

**Role:** Frontend Developer

**Environment:** React.js, TypeScript, JavaScript, CSS, HTML

**Tools:** Visual Studio Code, Git, SCORM

**Team Size:** 15

**Project Overview:** Led the development of a comprehensive Corporate Learning Management System, facilitating efficient training and development for a large corporation. Employed React.js and TypeScript to create a modular and adaptive frontend. Utilized CSS and HTML for a sleek and professional user interface.

#### **Roles and Responsibilities:**

- Directed the frontend development team, ensuring cohesion and adherence to project timelines.
- Implemented React.js with TypeScript to deliver a scalable and feature-rich learning platform.
- Integrated SCORM standards for seamless compatibility with various e-learning content.
- Collaborated with instructional designers to optimize user experience and engagement.
- Conducted performance optimizations for efficient data handling and real-time tracking.

- Oversaw the implementation of responsive design principles for a consistent experience across devices.

## 04 EDUCATION

Jul 2018 — Jul 2021

### I.E.C. University

Solan, Himachal Pradesh

Bachelor of Computer Applications (BCA)

I completed a three-year Computer Application program at IEC University, focusing on computer programming. The curriculum equipped me with essential skills and knowledge in software development, laying a strong foundation for my career in technology.

## 05 SKILLS

|                                   |                 |
|-----------------------------------|-----------------|
| HTML5                             | Version Control |
| Cascading Style Sheets (CSS)      | Github          |
| JavaScript (Programming Language) | Web Standards   |
| TypeScript                        | Lazy Loading    |
| React.js                          | Collaboration   |
| User Experience Design (UX)       | Maintainability |
| Figma (Design Software)           | Debugging       |
